US Army Corps of Engineers®
St. Louis District

Come see all kinds of telescopes, including Dobsonian telescopes. Talk to local amateur astronomers. Participate in Astronomy Activities and Register for Prizes. Bring your own telescope!

Did you know that the “Dobsonian” reflecting telescope is one of the most popular telescopes on the market today?

There is a good chance that if you own a telescope it could be a Dobsonian.

Want help learning how to use your telescope? Regardless of type of telescope you have, bring it with you.

We will have demonstrations and tips from local amateur astronomers on how get the maximum enjoyment out of your telescope

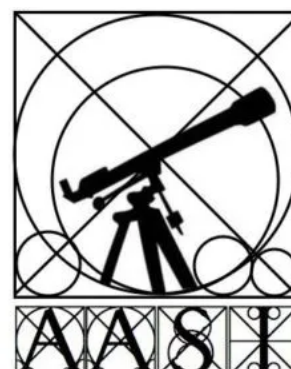

SPONSORS:

Library Telescope

DarkSky MISSOURI

Activities and Demonstrations

Timeline 4:00 pm – 9:00 pm

Activities and Demonstrations 4:00-7:00 pm

Attendance Prizes 5:00-7:00 pm

Night Time Telescope Viewing 7:30-9:00 pm

Sunset: 7:10 pm

Twilight begins: 7:37 pm

Twilight ends: 8:40 pm

Activities and Demonstrations:

- ★ Light Pollution Information
- ★ What are Library Telescope and Binoculars?
- ★ General info on telescopes
 - ☆ How to select a good first telescope for the family
 - ☆ Demonstrations on set up and use of your telescope
 - ☆ Tips on how to clean and align your telescope
 - ☆ Display of best telescope accessories
- ★ Telescope Vendor Display: Lookin' Up Optics (Celestron, Explore Scientific)
- ★ Astrophotography information
- ★ Radio astronomy
- ★ Make a Planisphere
- ★ Universe in a Different Light and Fun with Filters
- ★ Astronaut food and fun
- ★ Meteorite Display
- ★ Pocket Solar System and Solar System Model
- ★ Astronomy Info Posters & Scale Model Walk

NO EVENT TO BIG OR TOO
SMALL

John Dobson (1915-2014) was known as a telescope maker and innovator. During his lifetime, John developed easy to build telescopes, made from low-cost materials. Many of today's commercial telescopes are of the Dobsonian design. The simplicity of design, makes a Dobsonian telescope easier to setup and use compared to more sophisticated telescopes.

Dobsonian telescopes are very durable and they don't wear out or break easily. You may have a Dobsonian stored away in a closet or garage. Bring it to Dobson-Fest 2024 and let us help you!

2024 KEY EVENTS

September 8 - 14 International Library Telescope Week
